## Summary

Backend Software Engineer with 1.5 years of experience in Java, Spring Boot, REST APIs, SQL, and airline supplier integrations, specializing in NDC ancillary flows, SSR handling, booking workflows, and production issue resolution in the travel-tech domain.

## Experience

**Software Developer Engineer** Aug 2024 – Present
**Via.com**
**Post-MMB SSR Integration – Navitaire NDC and Lion/Vedaleon**

- Implemented post-MMB ancillary flows for baggage, meal, and seat services in Navitaire NDC, along with post-booking meal and baggage SSR integration for Lion/Vedaleon Airlines through request and response mapping.

**Pre-Booking SSR Integration – Sriwijaya, Batik Air and Pelita**

- Implemented pre-booking seat, meal, and baggage flows for Sriwijaya, Batik Air, and Pelita by developing request and response mapping logic for ancillary availability, pricing, and selection before booking confirmation.

**Amadeus NDC SSR Enhancement and Integration**

- Enhanced passenger-wise ancillary selection for baggage and meal SSR flows in Amadeus NDC, enabling users to select ancillaries according to individual passenger types and passenger mapping.

**Welcome Email and WhatsApp Communication Enhancement**

- Enhanced the welcome email flow by integrating WhatsApp communication support and updating the UI to improve user onboarding and communication experience.

## Technical Skills

**Languages:** Java, SQL
**Frameworks:** Spring Boot, REST APIs
**Database:** MySQL, PostgreSQL
**Tools:** Git, Postman, Maven
**Core Concepts:** OOP, API Design, Debugging, Exception Handling, System Design Basics
**AI Tools:** OpenAI API Basics, Prompt Engineering Basics

## Education

**Bachelor's Degree in Computer Science** 2020-2024
**ITS Engineering College** 75.5%
**Class 12th** 2016-2018
**Jain College** 74%
**Class 10th** 2015-2016
**DK Carmel School** 95%
